

# PRODUCT LINE

OVERVIEW

## TRUCK TRAILER TRANSIT PRODUCT LINE

### Custom Brake Maintenance Kits

Brake Component kits are a very effective maintenance management tool.

- Ensure necessary parts are being replaced
- Standardization of brake rebuild
- Maximum braking efficiency and safety

### Premium Heavy Duty Steel and Cast Iron Brake Shoes for both Meritor™ and MAN™ Applications

Premium brake shoes are designed for severe duty applications. Each shoe is fully machined for optimum drum to shoe contact. Heat treated roller pockets provide maximum durability.

### Transit Severe Duty – Spring Brake and Service Chamber

Severe Duty Spring Brake and Service Chambers for all Transit and Coach applications.

Designed to solve your maintenance issues:

- Severe duty return spring
- Stainless steel shaft
- 10 gauge steel construction
- Pre-cut and clocked – Box-to-Bus

### King Pins & King Pin Kits

OE Quality king pin and king pin kits to service all makes front non-drive steer axles.

### Premium Transit Camshafts

- Fully machined head
- Heat-treated splines and journals for smooth operation
- Fully hard-chromed for longer life

## TRUCK TRAILER TRANSIT PRODUCT LINE
